

# Quality car servicing from Newtown Garage

There is good news for motorists in Buckinghamshire who need look no further than new Bosch Car Service member, Newtown Garage in Chesham, for all their vehicle servicing, MOT and repair needs. Newtown Garage has recently been appointed as a Bosch Car Service centre, which means customers benefit from the skills of a team with the most up-to-date training, equipment and techniques to provide the best possible service on time, every time.

Speaking about this new development for the garage, company director, Jay said: "The reputation of Bosch is second to none and this partnership will help realise our vision of providing excellent servicing by highly trained technicians. All our technicians are fully qualified and regularly attend refresher and upgrade courses to ensure they are fully conversant with the ongoing changes within

the motor trade as well as upgrades to vehicles". Whilst primarily a German and Swedish vehicle specialist, Newtown Garage is qualified to work with the majority of cars on today's roads. The garage's highly experienced

team offers servicing, MOT's and repairs to all their customers. They also stock and fit a vast selection of tyres, exhausts, engines, batteries and the latest diagnostic equipment. All work carried out by Newtown Garage is guaranteed for 12 months inclusive of parts and labour. Not only that, but the garage operates a 'no surprises' policy, meaning no job, however big or small is ever started until the team have full customer authorisation. Now, thanks to recent changes in European Block Exemption legislation, motorists have greater freedom to service their cars at local, independent garages without affecting their warranty. This means customers no longer have to take their cars back to the dealer, but can shop around for a reliable, quality service that's great value for money! "Customers are always surprised to hear they can bring their new vehicles in for a service without having to worry about invalidating the manufacturer's warranty – it's great because it gives customers more choice by allowing them to decide for themselves where they get their car sorted." said company director Jay.

Earlier this year Newtown Garage was pleased to sponsor the 'Schools of Chesham Carnival' for the second time, as well as pledging to offer the garage's support for a further four years. The 2006 carnival not only saw a Newtown Garage stand in the park, but the Bosch sponsored British Touring Car Championship racing car on display at the Bosch marquee. It is the close attention to detail and professional, courteous service that sets the team at Newtown Garage apart from the rest. With a wealth of experience under the team's belt, you can trust Newtown Garage to always offer a superior service in a timely and professional manner.
